General Information

Who We Are

The Wireless Alliance is a cell phone recycling company. We work with wireless retail stores, e-waste recyclers, schools, universities, state and local government, large corporations, bulk processors, and non-profit organizations to collect and recycle cellular equipment.

With over 300 million wireless users in the United States alone, we continually strive to provide the best environmental and charitable solutions for wireless recycling.

TWA is an R2: 2013, ISO 14001:2004, and OHSAS 18001:2007 certified facility.

Since 2001, The Wireless Alliance has reclaimed thousands of tons of wireless equipment from landfills, contributing to a cleaner and safer environment.

5541 Central Ave. Suite 125 Boulder, CO 80301 Latitude: 40.020016 | Longitude: -105.223685

The Wireless Alliance, LLC Environmental Policy

We at The Wireless Alliance accept environmental responsibility for our activities and processes. We are committed to sound environmental practices and the prevention of pollution with the aim of attaining our environmental targets and objectives.

The Wireless Alliance adheres to a policy for managing used and end-of-life electronic equipment that is based on a "reuse, recover, dispose" hierarchy of responsible management strategies.

The Wireless Alliance and its personnel are committed to complying with the applicable environmental requirements of the relevant legal authority, as well as the industry and any additional requirements to which the company subscribes; including the Responsible Recycling ("R2") Standard.

Furthermore, The Wireless Alliance is committed to the review and continual improvement of our EHSMS and activities to minimize impact on the environment.

This policy is to be communicated and reinforced to all persons working for, or on behalf of, The Wireless Alliance.

Health and Safety Policy

The Wireless Alliance is committed to the Occupational

Health & Safety (OH&S) of all persons within its facility.

The OH&S contributes to all aspects of business performance as part of The Wireless Alliance's commitment to continual improvement and the development of human factors including the culture, attitude and beliefs within The Wireless Alliance.

The Wireless Alliance's top management has set in place procedures to define, document and endorse this OH&S policy and includes its commitment to protecting the safety and health of persons at work and others who might be affected by their work activities.

- This policy will be achieved by:
- Adherence to all relevant International, Federal, State and local OH&S treaties, legislations and regulations;
- Recognizing and implementing OH&S as an integral part of improving business performance;
- Achieving a high level of OH&S performance, and a commitment to continual cost-effective improvement in performance;
- Minimizing risk and the prevention of injury, ill health, diseases and incidents;
- Acknowledging that people are the key resource and promoting the general health and safety of employees;
- Providing adequate and appropriate resources to implement the policy including access to competent specialist advice where necessary;
- Setting and publishing OH&S objectives at a minimum by internal notification;
- Placing management of OH&S as a prime responsibility of line management from most senior executive to first-line supervisory level;
- Ensuring its understanding, implementation and maintenance at all levels in the organization;
- Ensuring employee involvement, participation and consultation to gain commitment to the policy and its implementation;
- Ensuring that employees at all levels receive appropriate training and are competent to carry out their duties and responsibilities;
- Periodically reviewing the policy, the management system and audit of compliance to policy, as a driver of continual improvement;
- Periodically reporting OH&S management performance internally and to external parties where relevant.

FM Management Plan Summary

The Wireless Alliance manages Prevention/Detection controls and meets Legal Requirements to protect the environment, health and safety at the facility and downstream.

TWA regularly reviews, updates, plans, and analyzes how the Focus Materials (FMs) that pass through the facility will be managed properly on site and down the Recycling Chain.

This FM Management Plan was developed by TWA to demonstrate how we and our downstream vendors conform to continually meet the requirements set forth.

Definitions:

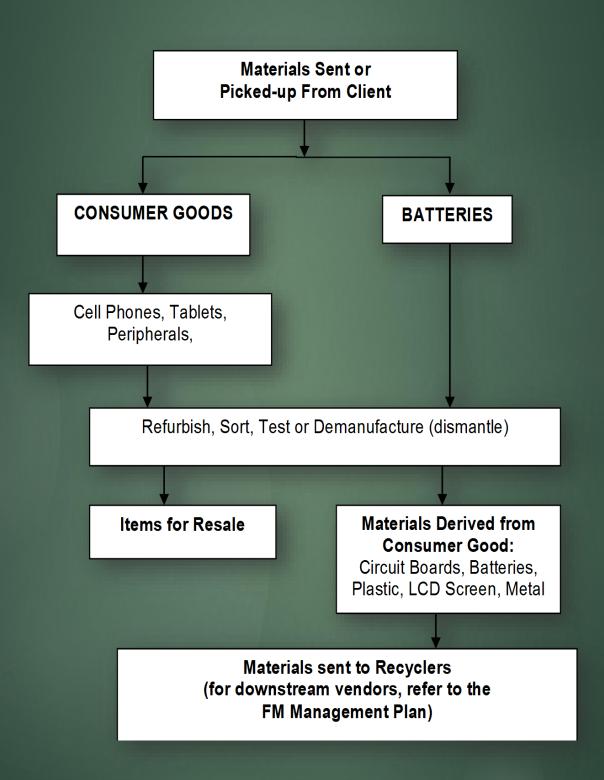

Focus Materials (FMs) are materials found in end-of-life electronic equipment that require greater care during the recycling, refurbishing, and/or recovery process. Due to the toxicity and other public heath and environmental concerns found in these items, adverse effects can arise if not managed without appropriate safeguards.

- FMs Contain:
- (1) Polychlorinated biphenyls (PCBs), or
- (2) Mercury, or
- (3) CRT glass, except for glass with lead content less than 5 parts per million, and clean of phosphors, CRT fines, coatings, and frit, or
- (4) Batteries, or
- (5) Whole or shredded circuit boards, except for whole and shredded circuit boards that do not contain lead solder, and have undergone safe and effective mechanical processing, or manual dismantling, to remove mercury and batteries.

Recycling Chain refers to all the downstream vendors who handle end-of-life equipment or materials processed through our facility.

Downstream Vendors include any entity to which TWA will transfer used or end-of-life materials including reuse, de-manufacturing, processing, materials recovery, energy recovery, and incineration facilities.

Data Security

The devices received at TWA are secured in a perpetually locked data center and wiped 0-48 hours after entering our facility.

100% of materials are processed using commercial products; combinations of Future Dial, Greystone, Pervacio, and any manufacturers internal mechanism's are verified effective for data wiping. Per R2 requirements, 3rd Party Verifications are conducted twice annually by a mix of industry partners and equipment manufacturers.

TWA keeps a Wiping Log documenting each and every specific device that has been wiped. *See appendix H

Devices that are not data wiped must be smelted in accordance with our certifications.
Integrated Recycling Solutions, INC. (IRT) is committed to providing the highest quality recycling of non-ferrous and precious metals in a manner protective of the environment. IRT processes electronic scrap, catalytic converts, previous metals, ferrous metals, and non-ferrous metals.

EPA ID No. COR 000210922

Insurance

Workers Compensation (Policy# 4056673): General Liability (Policy# 05-XN3202-01): Business Owners Liability (Policy #05-XN3202-01) Policy Limits: \$500,000.00 \$4,000,000.00 \$4,000,000.00

Building Security

- 1. Security General:
- 1.1. The overall security of the facility is maintained (including alarm systems, secure access to facility, and any special access areas.)
- 2.1. The Wireless Alliance identifies personnel who have security access to the facility.
- 3.1. Personnel receive security training.
- 4.1. There are special secure areas of the facility where access is restricted to only authorized personnel, including the secure data destruction area and the area used to store devices awaiting secure destruction.

Personnel: All personnel in the warehouse who are engaged in secure data destruction will be required to have a criminal background check prior to being allowed any access to secure data destruction items or the area.

Orion Registrar, Inc.

This is to certify the Responsible Recycling System of:

Integrated Recycling Technologies, Inc. 219 Dundas Rd. Monticello, MN 55362 USA

Has been audited by a certification body that is in conformance with ISO/IEC 17021 requirements and applicable ANAB requirements. The organization is found to be in conformance with all requirements

R2:2013

As applied by the R2 Code of Practices including
No Allowance was applied as defined in the Section VII.

The Responsible Recycling System is applicable to:
The collection, segregation, processing, destruction, recovery
and disposal of electronic scrap.

The Certification period is from

May 6, 2015 to May 6, 2018

This certification is subject to the company maintaining its system to the required standard, and applicable exceptions, which will be monitored by Orion.

Client ID: 3831 Certificate ID: 163-26 IAF/NAICS/SIC Codes: 24 / 42193 / 5093

Date

Orion Registrar, Inc.

This is to certify the Environmental Management System of:

Integrated Recycling Technologies, Inc. 219 Dundas Rd. Monticello, MN 55362 USA

Has been assessed by Orion Registrar and found to be in compliance with the following Environmental Management Standard:

ISO 14001:2004

The Environmental Management System is applicable to:

The collection, segregation, processing, destruction, recovery and disposal of electronic scrap.

The Certification period is from

May 6, 2015 to May 6, 2018

This certification is subject to the company maintaining its system to the required standard, and applicable exceptions, which will be monitored by Orion.

Client ID: 3831 Certificate ID: 163-17 IAF/NAICS/SIC Codes: 24 / 42193 / 5093

Orion Registrar, Inc.

This is to certify the Occupational Health and Safety Management System of:

Integrated Recycling Technologies, Inc. 219 Dundas Rd. Monticello, MN 55362 USA

Has been assessed by Orion Registrar and found to be in compliance with the following Occupational Health and Safety Standard:

OHSAS 18001:2007

The Occupational Health and Safety Management System is applicable to:

The collection, segregation, processing, destruction, recovery and disposal of electronic scrap.

The Certification period is from

May 6, 2015 to May 6, 2018

This certification is subject to the company maintaining its system to the required standard, and applicable exceptions, which will be monitored by Orion.

PERRY JOHNSON REGISTRARS, INC.

Certificate of Registration

Perry Johnson Registrars, Inc., has audited the Environmental, Health and Safety Management System of:

Call2Recycle, Inc.
1000 Parkwood Circle, Suite 200, Atlanta, GA 30339 United States

The organization has been audited by a certification body that is in conformance with ISO/IEC 17021 requirements and applicable Accreditation Body requirements. The organization is found to be in conformance with the R2 Standard as applied by the R2 Code of Practices.

Responsible Recycling© (R2) Rev. 7/2013

This Registration is in respect to the following scope:

Management of the Collection, and the Distribution to Downstream Processors, for the Recycling of Batteries and Cell Phones

(Non-Applicable Provisions: 4. On-Site Environmental, Health, and Safety; 9. Storage; 10. Security; and 11. Closure Plan and Financial Responsibility)

This Registration is granted subject to the system rules governing the Registration referred to above, and the Organization hereby covenants with the Assessment body duty to observe and comply with the said rules.

Verry Boboige Terry Boboige, Presiden

Perry Johnson Registrars, Inc. (PJR) 755 West Big Beaver Road, Suite 1340

Troy, Michigan 48084 (248) 358-3388

The validity of this certificate is dependent upon ongoing surveillance.

Effective Date:

Expiration Date:

Certificate No.:

December 22, 2014

December 21, 2017
